## ALPHA EPSILON IS BACK

Originally chartered in 1946 as the 29th chapter in Sig Tau's history, Alpha Epsilon's re-chartering ceremony was a long-awaited day for the chapter at Henderson State University. The event was hosted on Saturday, March 31, in Arkadelphia, Arkansas; and as the men celebrated the past, present, and future of the chapter, they enjoyed the company of almost 100 attendees, including several alumni, friends, and family members as well as Henderson State faculty members. The chapter's Charter was presented by Chief Executive Officer Steve Latour, who traveled to Arkadelphia to honor the men and formally install the Executive Cabinet. Chapter President, P.J. Hawron, shared his thoughts about how far they have come as a chapter.

"The past year has been the most impactful experience of my life, and I know that every member can say the same. What started as a group of disorganized strangers, has turned into a strong brotherhood, and a well-oiled machine that is set to last for many years to come."

## UNIVERSITY OF ARIZONA CHAPTER BECOMES THE NEWEST CHARTERED CHAPTER

On Saturday, April 7, 2018, Sigma Tau Gamma recognized the Associate Chapter at the University of Arizona for its tremendous efforts and accomplishments and presented the group with their Charter. Granted

by 39th National President, Jonathan Proehl, UW – River Falls and Chief Executive Officer, Steve Latour, the chartering makes the Zeta Pi Chapter the 160th chapter to be recognized by Sigma Tau Gamma in its 97-year history. During the ceremony, chapter members were joined by friends, family, and loved ones who congratulated and celebrated their accomplishments. In attendance were Headquarters Staff and numerous notable alumni and guests including Foundation Vice Chairman Shawn Kelly and wife Monica.

The men of the Zeta Pi Chapter are involved in many organizations and aspire to be not only Greek life leaders but leaders of many areas on campus. The group has members in IFC, PATH Mentoring Programs, men's volleyball, Investments Club, Tau

Beta Pi Engineering Club, and more. Over 30 percent of the chapter is also enrolled in the university's Honors Program – a goal that many of the men are proud to say they have accomplished.
