FOUNDATION

2019-2020

ANNUAL REPORT

A NOTE FROM FOUNDATION CHAIRMAN **SHAWN KELLY,** *UW - River Falls*

As we reflect on 100 years of Sigma Tau Gamma, the Fraternity experience that exists today looks vastly different than it did in 1920. The dreams of 17 men who attended a local state teachers college in Warrensburg, MO have blossomed into over 73,000 initiated men on 197 different college campuses.

The critical issues facing the Fraternity experience today include health and wellness, a shifting technology landscape, public accountability, and rising costs of tuition and student debt. Additionally, diversity and inclusion continue to be an important focus moving forward. As we remain dedicated to the future, we must ensure the Principles of Learning, Integrity, Excellence, Leadership, Citizenship, and Brotherhood are the pillars of our foundation.

Over the years, Sigma Tau Gamma has learned and adapted. In 1963, the undergraduate experience was forever changed with the creation of the Sigma Tau Gamma Foundation. This entity originally began as a way for chapters to save money for housing, but it quickly turned into a way for the organization to give back to its undergraduate members through scholarship, grants, and helping pay the way for life-changing educational programs.

Just as the Founders did 100 years ago, we must seize the opportunities that lie before us. By understanding the shifts in today's society, we can position Sigma Tau Gamma to be stronger and more impactful than ever before. Together, we define what the first steps of the next 100 years will look like for this great organization.

Shawn Kelly, *UW - River Falls*

EDUCATIONAL PROGRAMS

YOUR DOLLARS SUPPORT

EARL A. WEBB ACADEMY FOR PRINCIPLED LEADERS

Sigma Tau Gamma was the first national fraternity to hold a President's conference, then known as Chapter President's Boot Camp. Since the first boot camp in 1985, now known as the Earl A. Webb Academy for Principled Leaders, the leadership program has evolved and now includes four-chapter officers. The purpose has remained the same: to provide time and space for brothers to become effective leaders for their chapters, develop personal and officer goals, and to design a framework for chapter success. This three-day program of intense leadership training and networking with other undergraduate officers, university professionals, Fraternity volunteers, and Headquarters Staff concentrates on personal and chapter leadership.

NOBLE MAN INSTITUTE

Noble Man Institute is designed specifically for the newest members of Sig Tau – the future leaders of our chapters and campuses. Since its inception in 2016, the retreat-based, substance-free format lends itself to a program that is hosted in a camp setting, utilizes large and small group curriculum presentation, peer-led facilitation, ropes challenge courses, family-style meals, an evening campfire and an alumni panel.

FUTURE PROGRAM DEVELOPMENT

We must continue to offer the best development opportunities possible for undergraduate leaders by providing opportunities for more students to connect, learn, and grow.

In the last few years, Noble Man Institute was introduced, and Webb Academy has undergone tremendous growth. Throughout the next biennium, the Path of Principles Program will also be undergoing significant changes. The member education program will be multi-faceted and will focus on education throughout the entire undergraduate experience, not just as a new member. A member education committee has already begun work on the creation of the program and is working on a phased rollout over the next two years.

As Sigma Tau Gamma continues to grow, we strive for Noble Man Institute to be an experience attended by every new member. The long-term goal is to endow this program, providing the opportunity for every new brother to attend the program free of charge.

Similarly, there is an opportunity to develop the leaders who are teaching the next generation of Sig Taus. Higher caliber training leads to higher caliber leaders. The future of Webb Academy will provide more training opportunities, including virtual training for all executive cabinet officers, the onboarding of more partners in higher education to bring a new level of professionalism, and continuing to show the lifetime commitment to Sig Tau by having Society of the Seventeen attend to share stories of brotherhood with undergraduates.

CENTENNIAL YEAR GOALS

The Principle of Learning teaches us to be focused and goal orientated. With your help, the Sigma Tau Gamma Foundation will have a record year, raise more funds than ever before, and will award more funds to deserving Noble Men.

I SUPPORT OUR BROTHERHOOD WITH A DONATION TODAY TO THE NOBLE MAN ANNUAL FUND.

WHAT IS THE NOBLE MAN ANNUAL FUND?

The Noble Man Annual Fund gives the Sigma Tau Gamma Foundation the flexibility to put your funds to the area of greatest need for undergraduates. The Noble Man Annual Fund is made from unrestricted donations that sustain the continuous growth of the Sig Tau Foundation and allow it to fulfill its purpose of financially supporting the Fraternity. These funds may be used to support attendance at national programs like Noble Man Institute, Webb Academy, or other leadership programming not hosted by Sig Tau, offer scholarships based on academic success, grant relief funds to students in an emergency situation or experiencing financial hardship (like those impacted this academic year by COVID-19), and provide new opportunities for training and development through diverse educational programming. Students today need your help and a donation to the Noble Man Annual Fund allows us to meet those ever-changing needs.

The first Principle is the Principle of Learning - and it is first for a reason.
