Professional/Civic/Community Experience:

No professional roles. I've worked part time jobs throughout college, and am enrolled in law school for the Fall 2026 semester.

I worked for three years with the UA chapter of the Andrew Goodman Foundation, presenting to college students about voter registration and encouraging them to vote in local and federal elections.

I've also worked with Holt High School's technical education class; the chapter founded a scholarship for a senior each year while I served as Director of Community Engagement.
