

Proposed Amendment to the Constitution by the Board of Directors, replacing Article I, Sections 2 and 3 (Page 1) as follows:

SECTION 2. Sigma Tau Gamma's vision: to be a Fraternity of courageous and noble men, who always endeavor forward.~~Vision: The Vision of this Fraternity shall be Building Noble Generations of Men.~~

SECTION 3. Sigma Tau Gamma's purpose: Building Generations of Noble Men.~~Purpose: The Purpose of this Fraternity is to be a fraternity of courageous and noble gentlemen, who always endeavor forward.~~

Rationale:

1. A vision is an ideal future state. A purpose is a reason for current existence and action.
 - Our current vision and purpose are flipped.
 - Suggested action: reverse them.
2. In the vision, we describe generations as noble when in fact, the men should be noble.
 - Suggested action: update to "building generations of Noble Men".
3. In the purpose, we describe ourselves as "noble gentlemen". The word gentlemen is overused, already a significant part of the branding for other fraternities, and its sentiment is already covered by "noble".
 - Suggested action: update to "a Fraternity of courageous and noble men, who always endeavor forward."
